

Providing practical training
for professionals who may be
required to appear as expert
witnesses in a court of law

Specialists (experts) of any kind may be called to assist the legal system as a direct result of their professional knowledge, training or experience. They may be drawn from a wide range of disciplines or occupations.

Forensic Foundations meets the need for essential forensic (legal awareness) training and coaching for any person or organisation whose expertise may be called on in the legal system.

Building evidence
on strong foundations

Forensic Foundations

Since commencing operations in 2008, Forensic Foundations has been able to assist a broad range of private and government organisations through education, training and consultancy services.

Examples of short courses and workshops conducted by Forensic Foundations include:

- ✓ An Introduction to the Australian Legal System
- ✓ Provision of Expert Evidence
- ✓ Withstanding Legal Scrutiny of Your Analytical Testing
- ✓ Quality Management and Legal Processes - strange bedfellows

Involvement of Experts in the Legal System?

.....
The organisation/individual is approached to undertake the testing to assist with legal argument

.....
The organisation/individual undertakes the testing for one purpose, but later the results of this testing are required to assist with legal argument

.....
The organisation/individual may be asked to comment on another organisation's testing or results

.....
The organisation/individual is sued leading to questions of negligence, liability etc
.....
